MISCELLANEOUS POLISH ORDER OF BATTLE DATA

25X1

<u>Unit Designation</u>	<u>Subordination</u>	<u>Location</u>	<u>CO and Remarks</u>
-------------------------	----------------------	-----------------	-----------------------

U/i Infantry Unit	Unk	KRAKOW (See Annex A for pinpoint location)	CO was unknown. This unit was stationed in the casern on Rajska Ulice (See Annexes B and C for sketch of this casern.) This casern was occupied jointly by this unidentified unit and the Central School for Rear Services.
-------------------	-----	--	---

25X1

25X1

Actual strength of this unit was about 20 officers, 22 NCOs and 350 EM; their training was continuous throughout the year. about 100 of the EM from this infantry unit took six months of infantry training at this casern and then six months of unidentified medical training at an unidentified military hospital in KRAKOW. Upon completion of this training they were transferred to medical units and hospitals throughout Poland.

25X1

about 20 EM of this unit were on detached duty with the KRAKOW military police and performed military police duties as directed by the CO of an unidentified military police unit. Date of information: April and May 1956.

25X1

U/i AAA Unit	Unk	KRAKOW (See Annex D for pinpoint location)	CO was unknown. This unit was located at the casern on Montelupich Ulice.
--------------	-----	--	---

25X1

utilized one-half of the building (See item 10, Annex E) for billets and offices; used the building (item 29) as garages for maintenance of their vehicles and antiaircraft guns; and used the area (item 33) as their training area. about 10 unidentified trucks and 10 unidentified antiaircraft guns and estimated that about 150 persons were assigned to this unit.

<u>Unit Designation</u>	<u>Subordination</u>	<u>Location</u>	<u>CO and Remarks</u>	
U/1 Antiaircraft Artillery and Antiaircraft Firing Area	Unk	WARSAW (See Annex F for pinpoint location)	CO was unknown. This unit was located on the west side of Ulica Marymonska in the Wielany District in WARSAW.	
[redacted] three or four one-story buildings [redacted] used for barracks. [redacted] about 25 unidentified antiaircraft guns placed in dug-in positions and about 25 Russian ZIS trucks which were mounted on wooden blocks. [redacted] this unidentified unit would remain in the area for about three months and then the area would be vacant for three to four weeks, following which the area would be re-occupied.				25X1
On several occasions [redacted] observed unidentified antiaircraft units engaged in firing practice at unidentified targets towed by light aircraft. [redacted] about five single-engine, Russian-type aircraft on an airfield located in this area. [redacted] this type plane was referred to as "Kukuruznik". The runway of this airfield was about 400 m long, parallel to Ulica Marymonska.				25X1
An obstacle course was located in this area between Ulica Marymonska and the airfield; [redacted] a wooden wall about 2m high and a barbed wire entanglement. [redacted]				25X1
Training Area	Unk	KRAKOW (See Annex A for pinpoint location)	CO was unknown. [redacted]	
[redacted] a number of army units in the KRAKOW area and university students taking military training used this training area. A rifle range with 10 lanes for small arms was located in this training area. [redacted]				25X1
Headquarters, Transportation Service of the Ministry of National Defense	Unk	WARSAW (See Annex G for pinpoint location)	CO was unknown. This installation was located next to the First Military District Hospital [redacted]	25X1
[redacted] a sign on the building [redacted] read "Headquarters, Transportation Service, Ministry of National Defense" (Szefostwo Sluzby Sawochodowij - M.O.N.). It was a four-story red brick building and many officers entering and leaving. [redacted]				25X1
Central School for Rear Services	Rear Services Department of the Ministry of National Defense	KRAKOW (See Annex A for pinpoint location)	CO was unknown. [redacted] the Reserve Training Center in KRAKOW, [redacted] was subordinate to the Central School for Rear Services.	25X1
[redacted]				25X1
This school was located in the Rajska Casern, which was occupied jointly by the school and an unidentified infantry unit. (For a [redacted] sketch of this casern see				25X1

<u>Unit Designation</u>	<u>Subordination</u>	<u>Location</u>	<u>CO and Remarks</u>
-------------------------	----------------------	-----------------	-----------------------

Annexes B and C.) Two four- or five-week courses, a cooks' course and a fire-fighting course, were taught at this school to conscripts who had completed basic training. [] these courses were taught throughout the year. [] the student strength at 60 and the permanent party strength, including administrative and instructor personnel, at 20. [] that about 10 firemen from KRAKOW were used as instructors for the fire-fighting course.

25X1

25X1

U/i Officers' Chemical School	Unk	KRAKOW (See Annex D for pinpoint location)	CO was unknown. This unit was located directly across the street from [] the Reserve Training Center at the Montelupich Casern. []
-------------------------------	-----	--	--

25X1

25X1

25X1

First Military District Hospital	Unk	WARSAW (See Annex G for pinpoint location)	CO was Colonel HANEMAN, (fmu), Medical branch. From 7 May to 30 June 1956, []
----------------------------------	-----	--	--

25X1

[] furnished medical treatment to all military personnel of the First Military District.² Because this hospital had the best military eye clinic in Poland it also handled serious eye injuries for all Polish troops, and in November 1956 the regime directed that 30 percent of the eye clinic be utilized for treatment of civilian patients referred to this hospital by civilian institutions. []

25X1

[] this hospital had a 600-bed capacity; [] estimated [] strength of assigned personnel (which included doctors, nurses, EM and civilians) at approximately 307. Within the compound of this hospital, but not subordinate to it, was a Central Military Health Clinic (Osrodek Zdrowia Poradnia Wojskowa). The actual strength of this clinic, including medical officers, dentists (military and civilian), technicians, and clerks was approximately 127. Four military ambulances, three unidentified trucks, and three personnel carriers were assigned to this hospital. Two ambulances were of Soviet make, one of Czech make, and one of American make. The personnel carriers consisted of two Polish "Warszawa" vehicles and one Czech "Skoda".

25X1

[] the First Military District Hospital, as late as 1956, furnished doctors, nurses, EM, and medical supplies to a field hospital located in North Korea which was under the direction of this hospital. []

25X1

<u>Unit Designation</u>	<u>Subordination</u>	<u>Location</u>	<u>CO and Remarks</u>
U/1 Military Hospital	Unk	WARSAW (See Annex F for pinpoint location)	CO was unknown. This building was located on the west side of Ulica Marymonska in the Bielany District of WARSAW. This building had been under construction for about 3½ years

25X1

The hospital was to consist of three four-story buildings of Swedish type construction with a basement floor, and the buildings were connected by a corridor on the second or third floor. These were very modern buildings with large glass windows on all sides of the buildings.

25X1

the two on either side were larger than the middle building. (See Annex F)

25X1

this was to be a civilian hospital and that two departments of the hospital would be opened some time in 1957. One of the departments was to give specialized treatment in alimentary and alimentary canal disorders (Przewod Pokarmowy). this was a new medical field for Poland and that no other hospital in WARSAW treated this type of sickness.

25X1

25X1

Although this hospital was referred to as a civilian hospital in the newspapers, it was to be an Air Force hospital and only a very small portion was to be used by the civilian population.

25X1

U/1 Military Hospital	Unk	WARSAW (See Annex I for pinpoint location.)	CO was unknown. This hospital was located at the corner of Ulica Chalubinskiego and Ulica Koszykowa in WARSAW.
-----------------------	-----	---	--

25X1

This hospital was a six-story building about 40 m x 50 m, constructed of unpainted cement brick. The following wording was on a sign posted on the front of the building: "Hospital of The Ministry of National Defense - Gynecology Department" ("Szpital Ministerstwa Obrony Narodowej - Oddzial Ginekologiczny"). Although this sign was posted on the buildings, other types of medical treatment were also given there.

25X1

U/1 Dispensary	Unk	WARSAW (See Annex I for pinpoint location.)	CO was unknown. This dispensary was located at the corner of Ulica Koszykowa and Ulica Chalubinskiego in WARSAW.
----------------	-----	---	--

25X1

It was housed in a two-story building constructed of red brick. It was common knowledge that officers working in The Ministry of National Defense received medical treatment here. The following sign was posted on the front of the building: "Dispensary of The Ministry of National Defense" ("Przychodnie Ministerstwa Obrony Narodowej").

U/i Military Tuberculosis Sanitarium	Unk	ZAKOPANE (See Annex J for pinpoint location.)	CO was unknown.
--------------------------------------	-----	---	-----------------

25X1

this sanitarium was an exclusive sanitarium for higher-ranking officers of the Polish army. the main building was about 11 stories high, constructed of red bricks. The windows were painted white.

25X1

25X1

Army Central Pharmaceutical Supply Depot	Unk	CELESTYNOW (See Annex K for pinpoint location.)	CO was unknown. This was the army central pharmaceutical depot for all Poland.
--	-----	---	--

The warehouses were in the woods and paths led to the buildings.

25X1

Military Post Office	Unk	WARSAW (See Annex G for pinpoint location.)	CO was unknown. This building was located in the same city block as the First Military District Hospital
----------------------	-----	---	--

25X1

This was a 11-story building about 100 m long, 50 m wide and 50 m high. The front of the building was constructed of steel frames with plate glass.

this building was about six years old.

25X1

U/i Military Prison	Unk	KRAKOW (See Annex D for pinpoint location.)	CO was unknown.
---------------------	-----	---	-----------------

25X1

This prison was located adjacent to the Montelupich Casern and was used for confinement of personnel in the Krakow area for periods of not over 30 days. (For a sketch of this unidentified military prison see item 24, Annex E.) The cells along Montelupich Ulice were used for prisoners who received light sentences, and the rear cells were used for prisoners sentenced to hard labor. This unidentified military prison consisted of two buildings on Montelupich Ulice and several unidentified buildings to the rear of these two buildings.

<u>Unit Designation</u>	<u>Subordination</u>	<u>Location</u>	<u>CO and Remarks</u>
Reserve Training Center	Central School for Rear Services on Rajska Ulice	KRAKOW (See Annex A for pinpoint location.)	CO was Capt LIPSKI (fnu), Infantry. This unit was located in a casern on Ulica Montelupich. (For a sketch of this area, see Annexes E and L.)

25X1

25X1

The mission of this unit was to conduct basic reserve military training for certain groups of individuals who were deferred from the service at an earlier date and classified as reservists in the Rear Services. Following this training, these reservists were reassigned to various unidentified units of the Rear Services throughout Poland for the remainder of their three months' reserve training. There were 115 enlisted reservists and five reserve officers in the training group. The majority of these persons were between the ages of 30 and 35. The duration of training was about four weeks. Training was conducted throughout the year, with a 10-day lapse between each training group.

25X1

25X1

25X1

Comments

1. "Kururuznik" is the Russian term used for a small liaison plane. "Kukurusa" is the Russian word for corn and this type of plane can take off and land even using a corn field.

LEGEND TO ANNEX B**General Description of the Building**

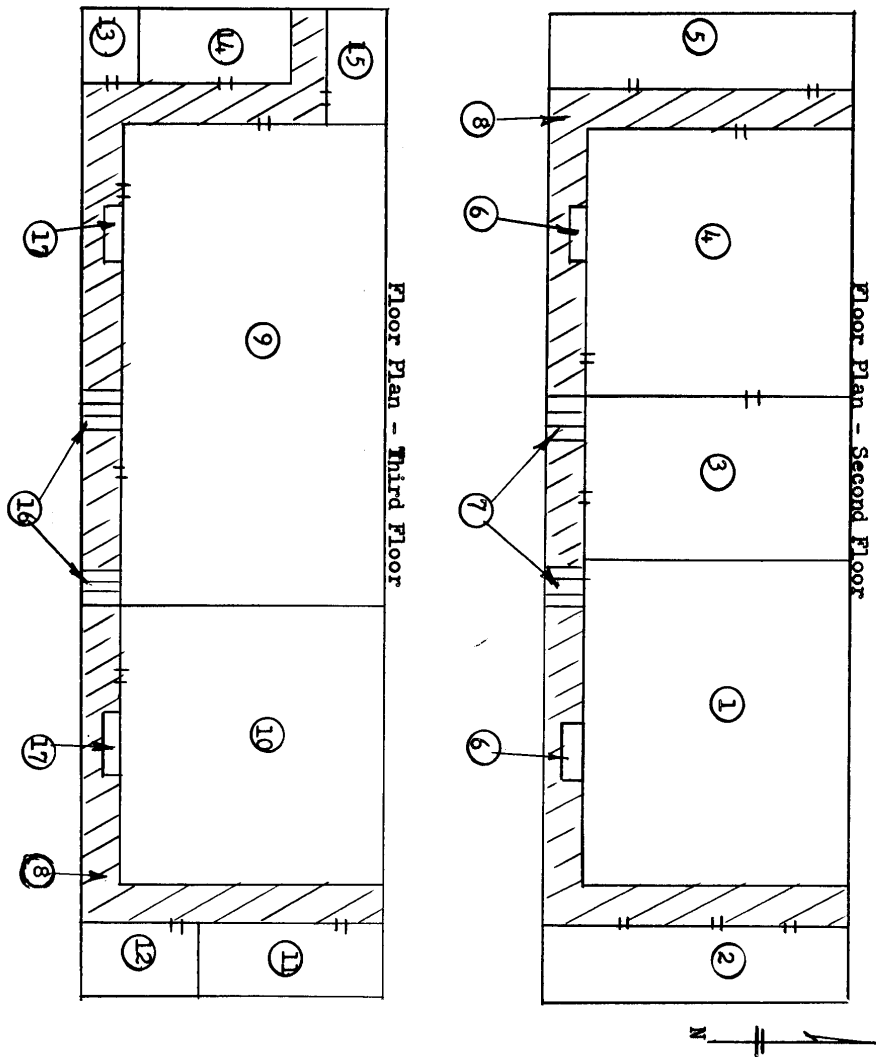

This was a four-story building about 100 m long, 25 m wide, 30 m high, constructed of red brick with a red slate, gable roof. A passageway through the center of the building about 5 meters high and 7 meters wide permitted vehicles to enter the area. The entire third floor was used for classrooms. This casern was shared by a Rear Services cooks' school, fire-fighting school, and an unidentified infantry unit. Windows on the first floor had iron bars across them.

1. Mess hall and kitchen.
2. Storage room for kitchen.
3. Washroom and latrine.
4. Guard check point and quarters.
5. Storage of rations for the Rajska and Montelupich Caserns.
6. Issue point for rations.
7. Unidentified offices.
8. Training and drill field about 115 m long and 60 m wide.
9. Iron pipe about 1 meter high, perhaps used as a hitching post for horses in former times.
10. Wire mesh fence about two meters high.
11. Open area adjoining the casern about 50 m wide and 100 m long.
12. Career NCO family quarters. These buildings were one-story, about 50 m long, 8 m wide, 8 m high, constructed of cement painted white with black tar-paper gable roofs. [redacted] about 4 families lived in each house. NCOs could enter the casern from these houses. 25X1
13. Passageway through the building about 7 m wide and 5 m high. This passageway was used for vehicles as well as for personnel.
14. Main door. This was a large, dark yellow, wooden door which allowed vehicles to enter and leave the area. There was also a small door within the large door to allow personnel to enter or leave the area. Two guards with submachineguns were on duty at this gate 24 hours a day.
15. Back door, which was similar in construction to the main door. There were no guards at this door.
16. Side gate. This was an open driveway about 10 m wide with a crushed rock base, used to allow larger trucks to enter the area and pick up rations from the ration issue point. Guards were posted here 24 hours a day.

25X1

LEGEND TO ANNEX E

Introduction

The following elements were located within this casern: In the northeastern section was an unidentified military prison, in the southeastern section were the quarters for unidentified students from an unidentified trade school, in the central eastern section was an unidentified AAA unit and the remainder of the casern was occupied by the Reserve Training Center.

1. Four class rooms, each having a capacity of about 50 people.
2. Quarters for personnel attending the fire-fighting or cooks' school at Rajska Casern. It was used only when sufficient space was not available at the Rajska Casern.

The four class rooms (1) and the quarters (2) were located on the ground floor of a two-story building about 100 m long, 12 m wide, 8 m high, constructed of brick, painted white, with a black tar-paper, gable roof. Windows on the street side were blue in color. On the second floor of the building was a large workshop for the construction and repair of targets used on the firing range and a workshop for repairs at Montelupich Casern.
3. A concrete wall about four meters high, painted white.
4. Mess hall for EM. This was a one-story building, 15 m long, 6 m wide, and 5 m high, constructed of unpainted wood with a black tar-paper gable roof.
5. Kitchen, 8 m x 6 m x 3½ m, same construction as above.
6. Storage room for kitchen, 10 m x 6 m x 5 m, same construction as above.
7. Dayroom and recreation hall, 25 m x 6 m x 5 m, same construction as above.
8. Main gate, constructed of unpainted wood, about 2 m high. This gate was guarded 24 hours a day by guards armed with pistols.
9. Guard building, a one-story building, 5 m long, 5 m wide, and 5 m high, constructed of brick painted white, with a black tar-paper shed-type roof.
10. Office of the commander. This was a one-story building 6 m long, 5 m wide, and 5 m high, constructed of brick painted white, with a black tar-paper, shed-type roof.
11. Wall, two meters high, made of cement blocks.
12. Unidentified military prison. These were three-story buildings, about 25 m long, 12 m wide, and 15 m high, constructed of cement blocks painted black with a black tar-paper gable roof. The windows along Montelupich Ulice had iron bars across them.
13. Side gate, constructed of iron, about 1½ meters high.
14. Walk leading from the side gate to the unidentified AAA unit and students' barracks.
15. Training area for the unidentified AAA unit.
16. Personnel office and orderly room. This was a one-story building 10 m long, 5 m wide, and 5 m high, constructed of brick painted white with a black tar-paper shed-type roof.

-16-

LEGEND TO ANNEX E, CONTINUED:

17. Side gate. This was an opening in the fence about 5 meters wide; it was unguarded. This gate was used by the unidentified AAA unit to move their vehicles and antiaircraft guns into their training area.
18. Unidentified AAA unit barracks and offices. This was a four-story building 100 m long, 12 m wide, and 25 m high, constructed of brick painted yellow with a black metal gable roof. Half of this building was occupied by unidentified students from the trades school (Polytechnicke) at KRAKOW.
19. Grass area.
20. A wire mesh fence about $1\frac{1}{2}$ m high.
21. Side gate, constructed of iron, about $1\frac{1}{2}$ meters high.
22. Back gate, constructed of unpainted wood, about 6 meters wide and 5 meters high. Both vehicles and personnel were permitted to use this gate. The gate was locked at all times and the NCO in charge of the workshop (Building 29) had possession of the key.
23. A small three-sided shed. A person desiring entrance through Gate 22 (the back gate), would press a button in this shed. This would ring a bell in the repair shop (Building 29) where the NCO in charge had possession of the key for the gate.
24. Unpainted wooden fence about two meters high.
25. Trees.
26. Fire-fighting equipment storage shed. This was a one-story building partly built into the ground, 20 m long, 8 m wide, and 5 m high, constructed of concrete painted white with a black tar-paper gable roof.
27. Water basin constructed of concrete 10 m long, 10 m wide, and 2 m deep. This water was used only in case of fire.
28. POL building. This was a one-story building 15 m long, 8 m wide, and 6 m high, constructed of concrete painted white with a black tar-paper gable roof. The type and quantity of POL products stored here were unknown.
29. Workshop for minor repairs on weapons and equipment. This was a one-story building 15 m long, 8 m wide, and 6 m high, constructed of brick painted white with a black tar-paper gable roof.
30. Garage for vehicles and weapons of the unidentified AAA unit. This was a one-story building, 50 m long, 10 m wide, and 6 m high, constructed of wood painted yellow with a black tar-paper gable roof. This building had four vehicle entrances opening into the compound.
31. Quarters for personnel undergoing basic training. This was a one-story building 40 m long, 15 m wide on the east wing, 25 m wide on the west wing, and 7 m high, constructed of brick painted white, with a black tar-paper gable roof. It had an estimated capacity of 150 persons. (See Annex L.)
32. Open area between buildings used for training.

LEGEND TO ANNEX E. CONTINUED

33. Warehouse for antiaircraft weapons and aircraft search lights. This was a one-story building, 80 m long, 12 m wide, and 8 m high, constructed of unpainted wood with a black tar-paper gable roof. It was constructed on a cement base about 4 m high, and on the east side of the building there was a cement ramp with tracks similar to railroad tracks leading into the building.

[redacted] these tracks extended into the building, and that they were used for some unidentified heavy equipment or vehicle. On one occasion [redacted]

[redacted] observed unidentified antiaircraft weapons and unidentified aircraft searchlights [redacted]

25X1

[redacted] Guards from an unidentified unit guarded this building day and night; two guards were posted during the day and four guards were posted at night. These guards were armed with unidentified rifles and carried them at trail arms while on duty.

34. Vehicle roadway.

35. Shower building, outside the compound. There were no shower facilities within the compound. This was a two-story building about 40 m long, 12 m wide, and 8 m high, constructed of brick painted white with a black tar-paper gable roof. The showers were on the second floor of this building.

25X1

36. A wire mesh fence about two meters high.
